### Clicker 5

*Friday 4<sup>th</sup> August. Venue: Centre for Inclusive Schooling, Hale House 9.00AM - 3.00 PM.*

Clicker is a powerful yet easy-to-use writing support and multimedia tool that enables children to write with whole words, phrases or pictures. It is also a powerful tool for creating multimedia presentations which can be enhanced with digital photographs, sounds and video. Basic computer skills are essential for this workshop.

### Clicker 5

*Friday 18<sup>th</sup> August. Venue: Centre for Inclusive Schooling, Hale House 9.00AM - 3.00 PM.*

Clicker is a powerful yet easy-to-use writing support and multimedia tool that enables children to write with whole words, phrases or pictures. It is also a powerful tool for creating multimedia presentations which can be enhanced with digital photographs, sounds and video. Basic computer skills are essential for this workshop.

### Meeting the Challenges of Transition for Students with Autism Spectrum Disorder

*Friday 18<sup>th</sup> August. Venue: Centre for Inclusive Schooling, Hale House 9.00AM - 3.00 PM.*

Planning the education journey through kindergarten to year 12 and beyond can be complex and difficult for students with Autism Spectrum Disorder, their parents and teachers. The issue of transition is critical from starting school, entering secondary school, transition from school to adulthood as well as more simple transition process of class to class year to year. This seminar will work through the triad of autism to provide practical strategies and resources for the school.

### IntelliTools Classroom Suite integrates IntelliPics Studio 3, IntelliTalk 3 and IntelliMathics

*Friday 25<sup>th</sup> August. Venue: Centre for Inclusive Schooling, Hale House 9.00AM -3.00 PM.*

This session is packed with ready made activities designed to include all learners and can be used across the curriculum with nursery age children right through to teenagers. Classroom Suite will track individual learners progress. It is quick and easy to create your own activities too - just add your own images and sounds to the templates provided. You can use a mouse, keyboard, switches or an IntelliKeys USB. This is an introductory session to explore program features and make some resources for the classroom.
